WELL DECOMMISSIONING STANDARDS

A well that is abandoned shall be decommissioned (destroyed) to protect the groundwater supply, and to eliminate potential physical hazards.

All abandoned wells shall be destroyed in compliance with the “Private Well Guidelines” (pages 92 through 101) of the Department of Environmental Protection’s Division of Water Supply dated October 30, 1989 which constitutes part of the regulations, and are incorporated herein by reference.

Well drillers must certify in writing that they have complied with the “Private Well Guidelines” in decommissioning the well.
